(opening,pumps,ventila**

Description

**The fire-fighting systems and appliances shall be kept in good working order and readily available for immediate use. Crew was not able to gain access to the CO2 controls for the emergency generator space in a reasonable time.**

**Every oil fuel pipes, which, if damaged, would allow oil to escape from a storage, settling or daily service tank situated above the double bottom, shall be fitted with a cock or valve directly on the tank capable of being closed from a safe position outside the space concerned in the event of a fire occurring in the space in which such tanks are situated. The quick closing valve for the ship's emergency generator fuel supply failed to close when tested.**
