

# **Foreign RORO Passenger Vessel Examiner Performance and Qualification Standard**

## **Competency Code: FRPVE**

This Performance and Qualification Standard (PQS) workbook is an addendum to the Foreign Passenger Vessel Examination (FPVE) qualification. It is your responsibility to document all completed unit training items and keep track of all inspections completed during this process by filling out the Inspection Log contained within this PQS workbook.

This PQS workbook contains the additional tasks and steps to complete a Port State Control examination on a foreign flagged passenger RORO vessel. Those members who will be conducting examinations on these vessels are required to complete all tasks and steps in this PQS workbook.

The FRPVE PQS addendum may be completed concurrently with the FPVE PQS or subsequent to receiving a FPVE qualification. In either case a Certification Board must be satisfactorily completed prior to receiving the "Foreign RORO Passenger" notation on the FPVE Letter of Certification/ Designation.
