15109 - Maintenance of the ship and equipment | In meeting the requirements, the company should ensure that inspections are held at appropriate intervals and records of these activities are maintained. Objective evidence during an expanded ISM exam revealed that the crew was not accurately following the ship's procedures with regard to the inspection and testing of the embarkation and pilot ladders in accordance with BS-MN-09-4 and BS-MN-07-06. In addition, the vessel failed to conduct or document required strength test every 30 months according to manufacturer's specifications. |
