Description

The company should establish procedures to ensure that the ship is maintained in accordance with the provisions of the relevant rules and regulations established by the company. The operational nature of the deficiency number 2 provides objective evidence of a serious failure of the implementation of the ISM Code. An external audit report satisfactory to the OCMI must be submitted prior to clearance of this deficiency.

The carriage of solid bulk cargoes other than grain shall be in compliance with the relevant provisions of the IMSBC Code. Vessel is currently loaded with Ammonium Nitrate Based Fertilizer (UN 2067). PSCO identified that vessel's crew has not maintained records of cargo temperature in accordance with IMSBC carriage requirements.
