

Motion to Table Action on Task Statement #26-24: "NCFSAC Posthumous Special Recognition Award"

Motion: The National Commercial Fishing Safety Advisory Committee (NCFSAC) moves to table further Committee action on Task Statement #26-24, "Craft a NCFSAC Posthumous Special Recognition Award," until the next scheduled NCFSAC meeting and set up a sub-committee to work on developing finalizing the award structure.

Justification:

1. The Committee needs additional time to coordinate with other entities that should be involved in the award.
2. Additional discussion is needed to determine how the award will be presented and how its impact on industry safety advocacy can be maximized.

This motion aims to allow NCFSAC members adequate time to thoughtfully consider these aspects before finalizing the award structure. Task Statement #26-24 will be added as a priority agenda item at the next meeting.
