

Small Passenger Vessel Inspector Performance and Qualification Standard

International Addendum (KII)

This Performance and Qualification Standard (PQS) workbook is an addendum to the Small Passenger Vessel “K” Inspector (KI) PQS. It is your responsibility to document all completed unit training items and keep track of all inspections completed during this process by filling out the Inspection Log of the KI PQS workbook.

This PQS workbook contains the necessary tasks and steps to conduct an Inspection for Certification and drydock examination on a small passenger vessel that operates on international voyages. Those members who will be conducting inspections on K-boats that sail internationally are required to complete all tasks and steps in this PQS workbook.

The KII PQS addendum may be completed concurrently with the KI PQS or subsequent to receiving a KI qualification. In either case a Certification Board must be satisfactorily completed prior to receiving the “International” notation on the KI Letter of Certification/ Designation.
