Revision of LNG and LHG Waterfront Facility General Requirements Final Rule Published

The U.S. Coast Guard announced today publication of a final rule in the Federal Register that revises liquid natural gas (LNG) and liquid hazardous gas (LHG) waterfront facility general requirements.

The final rule harmonizes Coast Guard regulations with those of the Federal Energy Regulatory Commission (FERC) for LNG issues. It also includes requirements for LHG facilities that are similar to those for LNG facilities.

The final rule and related materials may be reviewed online at <http://www.regulations.gov>, docket number: USCG-2007-27022.

For more information, please contact CDR Patrick W. Clark at (202) 372-1410 or patrick.w.clark@uscg.mil.
