MSIB Cancellation: United States Coast Guard cancels MSIB 034-10

This bulletin formally cancels MSIB 034-10, dated December 22, 2010. The original MSIB announced the publication of a final rule that revised the general requirements for waterfront facilities handling liquid natural gas (LNG) and liquid hazardous gas (LHG) in Title 33, Code of Federal Regulations, Part 127. The subject rule became effective on June 25, 2010. As the governing regulations have been updated multiple times since its publication, the original announcement is now obsolete.
