Subject: [Non-DoD Source] RE: BNSF Sandpoint Project EA

Thanks for forwarding the letter. These issues will be addressed in the EA, and for the most part they already are addressed in the submitted application documents. Several of the items appear to be quite speculative with projected conclusions based on the speculations. Although we will not respond to the letter itself as answers to an interrogative, I am sure the EA will provide the factual data that addresses the issues in the letter.

Pierre

Hi Pierre and Sue,

Steve Fischer asked me to share the attached letter with you. In order to adequately address known public concerns, the NEPA EA will need to assess the issues raised in the letter and propose mitigation to address those issues. Also, if you know of any other issues that might arise as part of the public process, it would be good to address them in the draft EA as well.

As usual, please contact us with any questions or concerns.

Thanks.

Hi John,

Just wanted to make sure you know we have not forgotten about the EA and are working diligently to get this to you as soon as we have it updated with the final info we have.

Thanks for your patience.

Pierre Bordenave, *Director*
