PROPOSED ADDITION TO REGULATION 6

Submitted by the United Kingdom

To prevent abuse of the provisions set out in Regulation 6(3), as shown in TM/CONF/C.2/WP.14, it is suggested that the following paragraph should be added:

"(4) In the event of any of the conditions of exemption specified in paragraph (3) not being complied with, the space concerned shall be added to the ship's gross tonnage and may not thereafter be exempt until the ship concerned changes flag or ownership."
