TONNAGE MEASUREMENT, 1969
Technical Committee

NOTE ON ISRAELI PROPOSAL

Submitted by the United Kingdom Delegation

... Attached, for information, is a draft prepared by the United Kingdom delegation which shows, in respect of the representative selection of United Kingdom registered ships listed in Annex I (following page 70) of TM/CONF/3, the application of the formula proposed by the Israeli delegation at the meeting of the Technical Committee on the morning of 30 May 1969.

The divisor 70 cu. ft. (i.e. 2 cubic metres) represents the factor "a" in the Israeli formula.

This information may assist delegations in their consideration of this proposal.

PROPOSAL 'C' (DANISH AMENDMENT)

GROSS TONNAGE = VOLUME OF DISPLACEMENT ~ CU. FEET
70

PERCENTAGE DIFFERENCE
