

Expanded Online Ordering

COMING SOON!

As part of the United States Coast Guard (USCG) National Vessel Documentation Center's (NVDC) continuous process improvement effort, NVDC is testing an expanded online ordering system.

Once launched, the new eStorefront will provide customers with an efficient means to electronically apply for products directly with the USCG NVDC. Customers will be able to securely apply for a multi-year (one, up to five year) Certificate of Documentation (COD) for Recreational vessels, one-year CODs for vessels with Commercial and/or Registry endorsements, or request an Abstract of Title (A/T) and/or Certified Copy of COD (CCOD).

Not all products and services offered by NVDC will be immediately available; additional enhancements are planned to rollout in phases. During the transition period, customers can still visit [pay.gov](https://www.pay.gov) directly to order one-year CODs, A/Ts and CCODs.
