

Frequently Asked Questions: Medical Certificates

1. What is a medical certificate?

A medical certificate is a document that serves as proof that a mariner meets the required medical and physical standards, per the publication of the Federal Register (FR). This FR incorporates the 2010 Amendments to the STCW Convention into the U.S. regulations. It also makes other necessary changes to our national regulations for the purposes of reorganization, clarification, and needed updates.

The medical certificate is the Coast Guard's authorization that mariners have met the following requirements:

- Have the physical capability to fulfill all the requirements of basic training as required by Section A-VI/1 of STCW.
- Demonstrate adequate hearing and speech to communicate effectively and detect any audible alarms.
- Have no medical condition, disorder or impairment that will prevent the effective and safe conduct of the seafarer's routine and emergency duties.
- Are not suffering from any medical condition likely to be aggravated by service at sea or to render the seafarer unfit for service or to endanger the health and safety of other personnel on board.
- Are not taking medication that has side effects that will impair judgment, balance or any other requirements for effective and safe performance of routine and emergency duties on board.
- Mariners are required to carry a valid medical certificate, once issued, to sail under the authority of their merchant mariner credential (MMC).

2. How do I request a duplicate medical certificate?

Contact the Customer Service Center, Monday through Friday 8:00 a.m. to 5:30 p.m. EST, by e-mailing IASKNMC@uscg.mil, or by calling 1-888-IASKNMC (427-5662). A CSC representative will verify your information, and your medical certificate will be sent. Note, an affidavit or new application is not required. Please allow adequate time for delivery before requesting a duplicate.

3. What do I do with the medical certificate when I receive it?

The medical certificate must be carried along with you when you sail under the authority of your MMC.

**** VERY IMPORTANT: If printed, it is not to be taped, glued, laminated, peeled, or detached. ****

- Sign your certificate as soon as you receive it. Certificates must be signed to be valid.
- Note your expiration dates; they coincide with the type of service you are engaged in (STCW, National, or Pilot).
- If your certificate indicates that you have a medical waiver, you must comply with the requirements of the accompanying waiver letter.
- In addition to a valid medical certificate, the waiver letter must be carried with you when you sail under the authority of your MMC. As a result of the waiver, your certificate may also carry a limited expiration date of 1 or 2 years.

4. What is the impact on employers?

After March 24, 2017, a person may not employ or engage an individual on a vessel subject to STCW unless that individual maintains a current medical certificate.

After March 24, 2019, a person may not employ or engage any individual on a national voyage that is required to hold an MMC unless that individual maintains a current medical certificate.

Maritime Labour Convention (MLC) Applicability

The MLC entered into force on August 20, 2013. The MLC requires mariners serving on vessels to have a valid MLC medical certificate. The U.S. has not ratified the MLC. However, the MLC contains a “no more favorable treatment clause” that requires ratifying governments to impose MLC requirements on all vessels when calling on their ports.

Vessels that cannot demonstrate compliance with the MLC may be at risk of port state control actions, including detention, when operating in the port of a ratifying nation. The new medical certificates meet the medical certification requirements of the MLC.

In the event a vessel is not subject to STCW but is subject to MLC and is calling on a port in a country that has ratified the MLC, the Coast Guard will issue a medical certificate to qualified crewmembers upon proper application under reference 46 CFR Part 10, Subpart C.

**** If a mariner's medical certificate expires during a voyage, it will remain valid until the next United States port of call, provided that the period after expiration does not exceed 90 days. ****

5. Is there a cost for the medical certificate?

There is no cost for a medical certificate.

Normal fees still apply to MMC transactions consistent with 46 CFR Table 10.219(a). A medical certificate will not negate nor increase the normal MMC fees.

6. How do I apply for a medical certificate?

The CG-719K and CG-719K/E serve as applications for a medical certificate. To renew the medical certificate prior to expiration, mariners must apply via the [online portal](#).

A CG-719B is not required and there are no fees associated with applying for a medical certificate.

Mariners subject to the MLC but that do not hold an STCW endorsement must submit a CG-719K or CG-719K/E for issuance of a medical certificate.

7. How do I submit an application?

For a medical certificate only, the preferred way to submit your CG-719K or CG-719K/E (medical certificate applications) along with any supplemental medical information is via the [online portal](#) (<https://nmc-asap.appsplatformportals.us/>).

8. Can I submit an application by mail?

Yes. You can submit via mail, but the processing time will be significantly longer because your documents must be scanned. For faster service, submit via the [online portal](#).

- **United States Postal Service (USPS):** National Maritime Center
Medical Evaluation Division
100 Forbes Drive
Martinsburg, WV 25404

9. Can I submit a scan of a handwritten CG-719K or CG-719K/E?

Yes, if it can be read and understood by our staff. Send via the [online portal](#).

10. Can I submit a renewal application for a medical certificate that has expired?

Yes. Send it via the [online portal](#).

11. Can I submit amplifying/additional information (AI) from my provider directly to the NMC?

Yes. AI should be sent via the [online portal](#).

12. When should I submit my application?

Applications should be submitted at least 90 days in advance of the medical certificate expiration date or 90 days prior to the date the medical certificate will be needed.

13. Can you clarify what a “Third Party” is?

A Third Party is an individual or a group that you authorize for the purpose of acting on your behalf. Authorization allows for release of your information to the Third Party.

On page 10 of the CG-719K, it states that if the applicant completes and signs (c.) “CONSENT FOR THIRD PARTY TO ACT ON MY BEHALF”, the National Maritime Center will send ALL correspondence, INCLUDING YOUR MEDICAL CERTIFICATE, to the Third Party.

If the mariner completes and signs (b.) “CONSENT FOR COAST GUARD TO RELEASE INFORMATION TO A THIRD PARTY”, the National Maritime Center will send ALL correspondence EXCEPT THE MEDICAL CERTIFICATE to the Third Party. The Medical Certificate will be sent to the Delivery/Mailing Address filled out on page 3, Section I or the home address if no other address is supplied.

14. What are dates of examination and expiration?

Date of Examination

The Coast Guard considers the date of examination to be the date that it approves the issuance of a medical certificate. It will not coincide with the date the medical practitioner signed the CG-719K or CG-719 K/E; nor will it necessarily coincide with the issuance date of the medical certificate or MMC.

Dates of Expiration

Pay close attention to the different expiration dates listed on the certificate. Each medical certificate will carry more than one expiration date:

- **Mariners who sail under the authority of an STCW endorsement:** The expiration date applicable to a mariner serving onboard vessels to which STCW applies will be for up to 2 years past the date of examination unless the mariner is under the age of 18, in which case the maximum period of validity will be 1 year.
- **Mariners who sail as pilots:** The expiration date applicable to a mariner serving under the authority of an endorsement as First-Class Pilot or acting as a pilot under another endorsement will be a maximum period of 5 years.
- **Expiration for national mariners:** Medical certificates issued to national mariners will be issued for a maximum of 5 years.

15. What about Medical Waivers?

Existing Medical Waivers:

The Coast Guard may grant a waiver if an applicant for an MMC does not possess the vision, hearing or general physical condition necessary and extenuating circumstances warrant special consideration.

Time-Restricted Medical Certificates:

Mariners may receive a time-restricted certificate. Those certificates will expire in either 1 or 2 years depending on the medical condition, condition status and the need for periodic medical evaluations. This 1- or 2-year expiration date will apply to all medical certificate categories (e.g., FCP, STCW and National Certificates). Applicants must comply with the accompanying waiver letter to renew their certificate.

More information regarding operational limitations and restrictions on medical certificates can be found at [federalregister.gov](https://www.federalregister.gov).
