

RAISE IN GRADE VS. MODIFICATION TABLES

Objective & Background:

The document is for use throughout the National Maritime Center (NMC), for the purpose of creating consistency when determining what fees are due and whether an application requires a drug test. **IMPORTANT**, the modification tables provide information to be used when an applicant already holds a credential. The below fee table from 46 CFR 10.219 outlines fees for all endorsements.

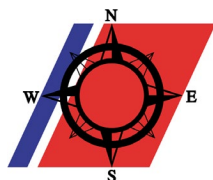

The document includes four tables. The tables take into consideration Marine Safety Manual (MSM) Volume III Part A Chapter 1 Figures 1-2 and 1-3, on pages A1-21 and A1-22, while speaking to endorsements that did not exist at the time the MSM table was created.

For fees, refer to [Fees Table from 46 CFR 10.219](#).

For modification of deck officers, refer to the [Deck Officer Table](#).

For modification of engine officers, refer to the [Engine Officer Table](#).

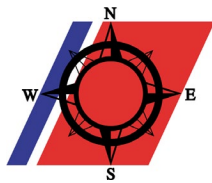

For modification of ratings, refer to the [Ratings Table](#).

2 – Lower level means credentials authorizing service on vessels of less than 1,600 GRT/3,000 GT.

3 – Duplicate for MMC lost as result of marine casualty—No Fee.

4 – No Fee.

For the purpose of whether fees and drug tests are required: This document will note “R” to mean that raise of grade fees should be collected and a drug test is required. “I” will mean modification (also known as removal of limitation *or* scope) fees should be collected and no drug test is required.
