

**33 CFR Part 155**  
**Applicability Chart for Floating OCS Facilities**

33 CFR Section	Section Title	Applicable	Not Applicable	Reasoning
Subpart A – General				
155.100	Applicability	X		
155.110	Definitions	X		
155.120	Equivalents		X	A FOF is not surveyed IAW 33/151.17, does not carry an IOPP Certificate and is not a tank vessel.
155.130	Exemptions	X		
155.140	Incorporation by reference	X		
Subpart B – Vessel Equipment				
155.200	Definitions	X		
155.205	Discharge removal equipment for vessels 400 feet or greater in length		X	FOFs are not oil tankers or offshore oil barges
155.210	Discharge removal equipment for vessels less than 400 feet in length		X	FOFs are not oil tankers or offshore oil barges
155.215	Discharge removal equipment for inland oil barges		X	FOFs are not inland oil barges
155.220	Discharge removal equipment for vessels carrying oil as secondary cargo		X	FOFs do not carry cargo
155.225	Internal cargo transfer capability		X	FOFs are not oil tankers or offshore oil barges
155.230	Emergency control systems for tank barges		X	FOFs are not tank barges
155.235	Emergency towing capability for oil tankers		X	FOFs are not oil tankers
155.240	Damage stability information for oil tankers and offshore oil barges		X	FOFs are not oil tankers or offshore oil barges
155.245	Damage stability information for inland oil barges		X	FOFs are not inland oil barges
155.250	Oil fuel tank protection	X		Based on the definition of ship
155.310	Containment of oil and hazardous material cargo discharges		X	FOFs are not tank vessels or offshore tank barges
155.320	Fuel oil and bulk lubricating oil discharge containment		X	155.320(c) exempts a FOF
155.330	Oily mixture (bilge slops)/fuel oil tank ballast water discharges on U.S. non-oceangoing ships		X	155.330(c) exempts a FOF
155.350	Oily mixture (bilge slops)/fuel oil tank ballast water discharges on		X	155.350(d) exempts a FOF

	oceangoing ships of less than 400 gross tons			
155.360	Oily mixture (bilge slops) discharges on oceangoing ships of 400 gross tons and above but less than 10,000 gross tons, excluding ships that carry ballast water in their fuel oil tanks		X	155.360(e) exempts a FOF
155.370	Oily mixture (bilge slops)/fuel oil tank ballast water discharges on oceangoing ships of 10,000 gross tons and above and oceangoing ships of 400 gross tons and above that carry ballast water in their fuel oil tanks		X	155.370(e) exempts a FOF
155.380	Oily water separating equipment and bilge alarm approval standards	X		Applies if FOF has equipment installed IAW 33/155.400(a)(2)
155.400	Platform machinery space drainage on oceangoing fixed and floating drilling rigs and other platforms	X		Based on the definition of fixed or floating drilling or other platforms except as exempted within
155.410	Pumping, piping and discharge requirements for non-oceangoing ships of 100 gross tons and above		X	FOFs do not have tonnage and exempted by 155.410(c)
155.420	Pumping, piping and discharge requirements for oceangoing ships of 100 gross tons and above but less than 400 gross tons		X	FOFs do not have tonnage and exempted by 155.420(c)
155.430	Standard discharge connection for oceangoing ships of 400 gross tons and above		X	FOFs do not have tonnage
155.440	Segregation of fuel oil and ballast water on new oceangoing ships of 4,000 gross tons and above, other than oil tankers, and on new oceangoing oil tankers of 150 gross tons and above		X	FOFs do not have tonnage
155.450	Placard	X		Based on the definition of ship
155.470	Prohibited spaces		X	FOFs do not have tonnage
155.480	Overfill devices		X	FOFs do not have cargo tanks
Subpart C – Transfer Personnel, Procedures, Equipment, and Records				
155.700	Designations of person in charge	X		Based on the definition of ship (vessel is included in the definition of a ship)
155.710	Qualifications of person in charge		X	FOFs are not tankships, tank barges, foreign tankships or foreign tank barges
155.715	Contents of letter of designation as a person-in-charge of the transfer of fuel oil		X	States as required by 33/155.710(e)(2) which apply, making this section not applicable
155.720	Transfer procedures	X		Based on the definition of ship

155.730	Compliance with transfer procedures	X		States as required by 33/155.720, making this section applicable
155.740	Availability of transfer procedures	X		States as required by 33/155.720, making this section applicable
155.750	Contents of transfer procedures	X		States as required by 33/155.720, making this section applicable
155.760	Amendment of transfer procedures	X		States as required by 33/155.720, making this section applicable
155.770	Draining into bilges	X		Based on the definition of ship
155.775	Maximum cargo level of oil		X	FOFs are not tank vessels
155.780	Emergency shutdown		X	FOFs are not tank vessels
155.785	Communications		X	FOFs are not tank vessels
155.790	Deck lighting		X	FOFs is not a self-propelled vessels
155.800	Transfer hose (refers to 33 CFR 154.500)	X		Applies to all hoses used for transfer of oil or hazardous material
155.805	Closure devices	X		Applies to all transfer hoses which are not connected for transfer of oil or hazardous materials
155.810	Tank vessel security		X	FOFs are not tank vessels
155.815	Tank vessel integrity		X	FOFs are not tank vessels
155.820	Records	X		Based on the definition of ship
Subpart D	Tank Vessel Response Plans for Oil		X	FOFs do not carry cargo
Subpart E	Additional Response Plan Requirements for Tankers Loading Cargo at a Facility Permitted Under the Trans-Alaska Pipeline Authorization		X	FOFs are not tankers
Subpart F	Response Plan Requirements for Vessels Carrying Animal Fats and Vegetable Oils as a Primary Cargo		X	FOFs do not carry cargo
Subpart G	Response Plan Requirements for Vessels Carrying Other Non-Petroleum Oils as a Primary Cargo		X	FOFs do not carry cargo
Subpart I	Salvage and Marine Firefighting		X	States as required by 33/155.1015 or 33/155.5015, neither of which apply, making this section not applicable
Subpart J	Nontank Vessel Response Plans		X	FOFs are not self-propelled
