

46 CFR 109, Appendix A Applicability

(NVIC 4-78)

Notes:

This flowchart only applies to MODUs that were existing, under construction or to be delivered by the dates listed within the flowchart.

NVIC 4-78 is published as Appendix A to 46 CFR Part 109 and was originally intended to apply to existing certificated and uncertificated U.S. MODUs. See Appendix A for definitions and further background.

NVIC 3-88, CH-1 allowed the use of 46 CFR 109 Appendix A (NVIC 4-78) by foreign-flagged MODUs that were seeking a LOC/COC under the provisions of Option A (33 CFR 143.207(a) & 146.205(a)). This NVIC also amended the grandfather date associated with 46 CFR 109 Appendix A.

NVIC 3-88, CH-1 was cancelled on 24Jun2014, when much of the content was incorporated into Marine Safety Manual (MSM), Volume II, Section G, Chapter 3 on the same date.
