

National Offshore Safety Advisory Committee

Task Statement Final Report

1 March 2023

April 18, 2023

Rear Admiral Wayne Arguin, U.S. Coast Guard
Executive Sponsor, National Offshore Safety Advisory Committee
Assistant Commandant for Prevention Policy, CG-5P
2703 Martin Luther King Jr. Ave SE, Stop 5701
Washington, D.C. 20593-5701

Subject: Review of Coast Guard's Final Report on the Floating OCS Facility - Tension Leg Platform
FPS AUGER Lifeboat Fall with Loss of Life on June 30, 2019 - Final Report

Dear Admiral Arguin,

The National Offshore Safety Advisory Committee (NOSAC) stood up a subcommittee on 26 April 2022 during the NOSAC spring 2022 public meeting in New Orleans, Louisiana to address the subject titled task statement. I am pleased to provide you with NOSAC's final report and recommendations regarding this task statement.

During the fall 2022 public meeting, the subcommittee provided an update to the committee and the Coast Guard on their progress. The subcommittee held five meetings between stand up and final report with excellent participation at each meeting, averaging 26 attendees across the five meetings.

During the spring 2023 public meeting held in Lafayette, Louisiana on 1 March 2023, the subcommittee's final report and recommendations were presented, reviewed and approved by NOSAC. The subcommittee is co-chaired by NOSAC members, Mr. Warren Weaver, Mr. Chris Woodle and Mr. Eric Roan, and was composed of representation from original equipment manufacturers, trade associations, recognized organizations, and other maritime stakeholders.

NOSAC appreciates the opportunity to provide advice on this subject and greatly appreciates the work of the co-chairs as well as all the subcommittee participants in producing this report.

Very Respectfully,

Lincoln D. Stroh
Vice Chairman, NOSAC
